**Teachable Thursdays**

**Buffalo A-Z**

- is for City Hall
- is for Central Terminal
- is for Buffalo and Erie County Central Library

**Art Deco – Did You Know?**

- Art Deco design began in France around 1920.
- You can identify Art Deco buildings because they have special geometric patterns. A lot of shapes that repeat over and over again. These buildings also use a lot of steel and chrome.
- Art Deco buildings often have "setbacks." This is when the building is large on the bottom, and gets smaller as it goes up. Think of a wedding cake - the biggest layer is on the bottom!
- Have you been to the Empire State Building in New York City? That is considered one of the best examples of Art Deco Architecture in the world!

**Activity Break!**
